**We are pleased to announce that Telecom Ottawa is now part of Atria Networks LP.** Atria owns and operates one of Ontario's largest fibre-optic networks. With this extensive broadband infrastructure, we provide governments, businesses and non-profit organizations with highest-speed secure Internet access and point-to-point connectivity.

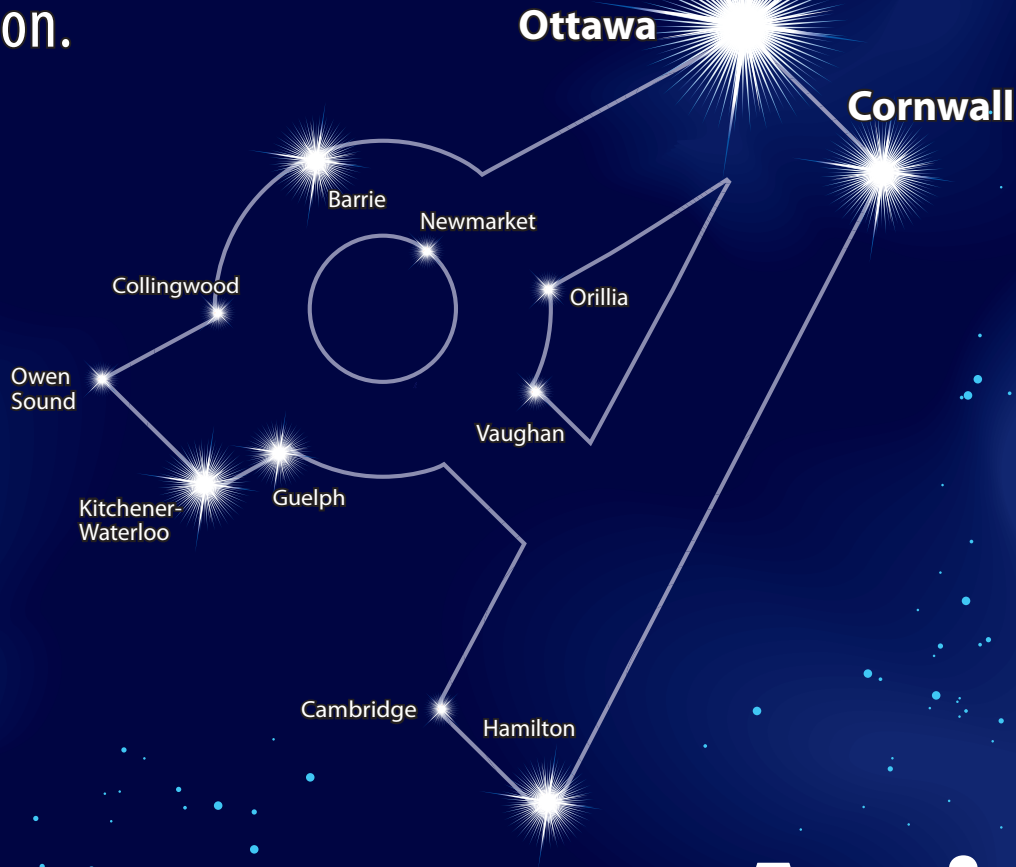

Community involvement—specifically with public libraries and children's literacy—is a corporate priority. We look forward to bringing new programs and services to Ottawa and Cornwall.
